LUXURY SERIES FURNITURE

Something about us

Arte dal Mondo is fruit of the passion for art and craftsmanship shared by two life partners, Paolo and Edgar. The two founders, who have always been united by their passion for seeking home decor objects all over the world, in 2004 transformed their hobby into an structured company, offering home decor products featuring strong elements of design and artisan craftsmanship.

The company designs, creates and distributes objects that decorate, embellish or add value to a variety of environments such as homes, workplaces, recreational spaces and others.

In 2009, the new ADM brand was created, underlining the fact that from that moment on, many of the products offered would be created based on our own designs.

One of the main company objectives is the continuous expansion of the range of items offered, so matching its supply to the current market trends and always offering our clients decorating solutions to meet the widest variety of requirements.

Our products varies between different categories: wall decorations, sculptures and objects, lighting, small designer furniture. The style of the products varies from classic to modern / design. However, what unites our entire proposal is the strong component of craftsmanship of the works.

HOME DECORATION

Luxury is having
unique and not
easily identifiable
pieces.

Karl Lagerfeld

LUXURY SERIES

COLUMNS E CONSOLE

Column stand
for vases or
sculptures, in
stainless steel
with a geometric
design

Features:

The ADM furniture of the Luxury series is designed to meet the needs of high-level contemporary furnishing boasting an attractive design that is at the same time essential and functional.

Designed to last, thanks to the use of materials that are extremely resistant to external stress and wear and tear over time (stainless steel, tempered glass, and marble), they are sturdy, light and easy to move as well as easy to clean and store.

Manufactured one by one using high craftsmanship techniques, they are almost all made in one piece or using a minimum number of screws, bolts or other assembly accessories to maintain the beauty of the piece.

In order to satisfy a demanding public, our designers and artisans work tirelessly to update, renew and improve this product line without ever forgetting any of its intrinsic features.
