WINTER NEWS 2023

Something about us

Arte dal Mondo is fruit of the passion for art and craftsmanship shared by two life partners, Paolo and Edgar. The two founders, who have always been united by their passion for seeking home decor objects all over the world, in 2004 transformed their hobby into an structured company, offering home decor products featuring strong elements of design and artisan craftsmanship.

The company designs, creates and distributes objects that decorate, embellish or add value to a variety of environments such as homes, workplaces, recreational spaces and others.

In 2009, the new ADM brand was created, underlining the fact that from that moment on, many of the products offered would be created based on our own designs.

One of the main company objectives is the continuous expansion of the range of items offered, so matching its supply to the current market trends and always offering our clients decorating solutions to meet the widest variety of requirements.

Our products varies between different categories: wall decorations, sculptures and objects, lighting, small designer furniture. The style of the products varies from classic to modern / design. However, what unites our entire proposal is the strong component of craftsmanship of the works.

WALL DECORATION

PAINTINGS AND PRINTS

Abstract painting, hand painted on canvas with embossed decorations and assembled on deep gallery wrap

Features:

Paintings on gallery wrap: paintings with a contemporary touch, they are pictures that do not need a frame thanks to the frame also being painted on the surface of the thickness. Ready to hang on the wall, they are all handmade and embellished with small details in other materials, such as sand or metal, or with real resin sculptures.

Prints on gallery wrap: like paintings, are ready-to-hang canvases without frames. They are design prints, fresh, original, definitely trendy, all with a decorative finish handmade by our craftsmen.

Collage 3d: are paintings made by hand assembling the different components of the collage one by one in order to achieve a very pleasing three-dimensional final effect. Finally, they are framed and protected through a glass front panel.

Metal wire paintings: new for winter 2024, the subject made by artfully bending a single wire is placed on a painted canvas that serves as a background and mounted on an aesthetic frame. The result is a work with an aesthetically pleasing and eye-catching effect.
